Subhamnayak20

Education

B.Tech Parala Maharaja Engineering College NOV 2022 - MAY 2026
- Computer Science and Engineering. CGPA: 7.96/10

Intermediate Vikas Residential School(CBSE) JUN 2020 - JUN 2022
- *Stream: Science* percentage: 86.4

Matriculation Odisha Adarsha Vidyalaya(CBSE) MAR-2020
- Percentage: 89.6

Skills:

- **Data Engineering:** *Microsoft Fabric, ETL Pipelines, Data Transformation, PySpark, Data Lakehouse,Warehouse*
- **Data Analytics:** *Advanced SQL, Excel, Power BI, KPI Analysis, EDA, Data Visualization, Power Automate*
- **Languages & ML :** *Python,ML Algorithim, Numpy,Matplotlib,NLP, Rest API, System Design, Fast API*
- **Languages:** *English, Hindi*

Professional Experience

INTERNSHALA(training), Machine Learning — Online, October 2023 - NOV 2023
- Built and optimized supervised ML models that improved classification accuracy by 15% on sample datasets.

CENTRAL TOOL ROOM TRAINING CENTER INTERNSHIP:,Internship in AI & DL — Bhubaneswar,Odisha, JUNE 2024
- Implemented deep learning models for image recognition, achieving 95% test accuracy on benchmark datasets. Leveraged: Tensorflow, Google Colab

Spikewell pvt. ltd., SDE Intern — Bhubaneswar,Odisha, March 2026 - Sept 2026
- Developed data pipelines in Microsoft Fabric for data ingestion and transformation, supporting downstream analytics workflows.
- Worked with Data Engineering concepts, including data ingestion, transformation, Data Lakehouse, Warehouse, Medallion Architecture and pipeline development in Microsoft Fabric.

Projects

Machine Learning model — GitHub:House price prediction
- Developed supervised ML models for house price prediction and flower species classification, performing EDA, data preprocessing, feature engineering, model training, and evaluation.

Natural Language Processing — GitHub: NLP project
- Built, deployed, and containerized NLP applications with Docker, including Sentiment Analysis (85% accuracy), and Poetry Generation models. Implemented Word2Vec for text generation and used SpaCy, NLTK for preprocessing.

Achievements:

- **Hackathon:** *Designed an AI-supported career decision-making model that analyzed academic marks for personalized guidance during a one-day hackathon*
- **Member of NSS:** *Social awareness campaigns and environmental conservation,demonstrating leadership & teamwork*

certification

- **Python DSA (NPTEL):** *Programming, Data Structures and Algorithms using Python , OOP*
- **Microsoft Fabric Data Engineer-(DP-700) :** *Data Pipelines, Lakehouse, Data Warehouse, Dataflows, Fabric*
